

PIMCO US Low Duration Corporate Bond UCITS ETF

ETF CLASS INCOME SHARES

Fund Description

The PIMCO Low Duration US Corporate Bond UCITS ETF aims to generate maximum total return, consistent with prudent investment management. The Fund will invest primarily in an actively managed diversified portfolio of US dollar denominated investment grade corporate fixed income instruments. Portfolio duration may vary between 0-4 years and the fund may invest up to 10% of assets in below-investment-grade securities.

Potential Investor Benefits

The Fund is designed for investors seeking exposure to credit but with less sensitivity to interest rate risk. Potential benefits include a lower interest rate risk versus traditional credit strategies, enhanced return potential relative to government bonds, PIMCO's forward-looking investment process and access to opportunities across a broad set of industries.

Potential Fund Advantage

- The Fund benefits from PIMCO's global credit investment expertise, which seamlessly integrates four decades of experience with robust credit research and a time-tested, forward-looking investment process.
- Transparent: ETF holdings are published daily

Risks of Investing

Share value can go up as well as down and any capital invested in the Fund may be at risk. Changes in interest rates and exchange rates may affect returns. The Fund may use derivatives for hedging or as part of its investment strategy which may involve certain costs and risks. Changes in the exchange rate between the base currency and your trading currency may affect returns. For more details on the Fund's potential risks, please read the Key Investor Information Document.
